- [ArcoLinux 20.2 Run Through](#) [3]

In this video, we are looking at ArcoLinux 20.2.

- [Linux Action News 145](#) [4]

The week was packed with major project releases, we go through each of them and tell you what stands out.

Plus an update from Essential, and NetBSD's first big ask in ten years.

- [Open Source Security Podcast: Episode 183 - The great working from home experiment](#) [5]

Josh and Kurt talk about a huge working from home experiment because of the the Coronavirus. We also discuss some of the advice going on around the outbreak, as well as how humans are incredibly good at ignoring good advice, often to their own peril. Also an airplane

wheel falls off.
