GNU ****make**** and some listener email.

- [Sioyek: A PDF Reader For Researchers?? - Invidious](#) [4]

Today we're looking at an odd PDF reader, it's not just intended to be used for regular PDFs, obviously it works great for that. But where it shines is working with research papers and provides a few interesting functions to make that easier.

- [Give Boring Video Cinematic Color Grading With LUTs - Invidious](#) [5]

In recent weeks, I've been playing around a bit with color grading my videos. One of the neat things that I've discovered are LUTs (look-up tables) which are templates that can be applied to videos (and images) to add color grading effects.
